(第三十七讲)

报告题目

报告一： Nutrient Management Using Soil Testing and Optical Sensor

报告二： Soil Health Measurement and Maintenance

报告人: 张海林

报告时间:

2019年9月16日 14:30–16:00 (报告一)

2019年9月17日 16:40–18:30 (报告二)

报告地点: 生科楼 837

报告人简历: Hailin Zhang is a Regents Professor and Nutrient Management Extension Specialist at the Department of Plant and Soil Sciences, Oklahoma State University (OSU). He is also the director of the Soil, Water and Forage Analytical Laboratory. Dr. Zhang received his BS degree from Nanjing Agricultural University, China, graduated from Iowa State University and the University of Minnesota with an MS and Ph.D. degree, respectively. His extension and research activities focus on soil, plant, water and animal waste testing, and nutrient management. He has authored or coauthored over 150 referred journal papers and edited 2 books. He was elected Fellow of Soil Science Society of America and American Society of Agronomy recently.
